

8000

S E R I E S

CLASSIC STEEL

For every taste, climate
and budget.

Front image: Colonial Panel with White finish and Prairie I Windows

8000 SERIES

Choose for style. Choose for performance.

Available with the TorqueMaster® Plus* counterbalance system which seals springs safely inside a steel tube. This system also prevents the door from free-falling if the spring should ever fail.

Tamper-resistant safety bottom brackets help avoid possible injury by preventing inadvertent loosening when the counterbalance cables are still under tension.

Most 8000 Series doors are available with structural reinforcements for use in coastal regions. These models meet wind load requirements of the International Building Code, Florida Building Code and Texas Dept. of Insurance.

* Available on Models 8000, 8100, 8200 only

1

choose your style:

Ranch

Models 8000 and 8100 are not available in all areas. Check with your Wayne Dalton dealer for details.
